Antigone in Ferguson is an innovative theater project that will present dramatic readings by acclaimed actors of scenes from Sophocles' *Antigone*--an ancient Greek tragedy about what happens when personal conviction and state law clash, and violence ensues--for diverse audiences in Ferguson, Missouri composed of concerned citizens, members of faith communities, and members of the law enforcement community, with the goal of generating powerful and healing dialogue, fostering compassion, understanding, and positive action. Each performance is followed by community panelist remarks and a facilitated town hall discussion.
